- ④ **After charged, remove the AC adaptor from the electric output, and remove the USB cable as well.**

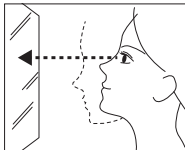

Instruction for use

CAUTION

- Using this product after mascara may cause eyelid or skin abnormalities, please stop using it immediately.
- The heat-activated color-changing pad becomes hot, so do not press it firmly against your eyelids.
- When using with mascara on, make sure the mascara is completely dry before use.
- If there is any abnormalities in your eyes or eyelids during or after use, please stop using immediately and consult doctor.
- Do not use on eyelash extensions, they may deform.

Use while looking into the mirror, to avoid any injury.

- Position the mirror in front of you, tilt your chin upward, and use the device with your eyes slightly lowered.
- Until you are familiar with the motion, practice how to move the device without turning the power on.

- ① **Press and hold the Power / Temperature button.** 
Wait about 10 seconds for the silicone pad to warm up.

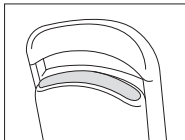

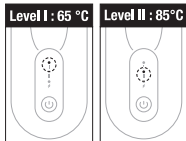

*You can adjust the temperature by pressing the button.
Temperature settings: 2 levels

Level I: 65 °C

Level II: 85 °C

*Temperature tolerance: ± 15 °C power supply and try charging again.

- ② **Select your preferred temperature.**
When the silicone pad changes to a light pink color, it is ready for use.

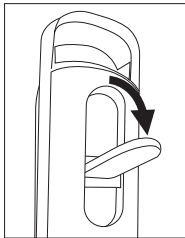

Instruction for use

- ③ Press up the lifting lever on the back of the main unit.

Place the silicone pad at the base of your eyelashes, then press the lever down to clamp all of the lashes.

Slightly lift the unit and hold it for a few seconds, then release the lever.

*By positioning the silicone pad close to the roots of the lashes, you can achieve a cleaner, more defined curl.

- ④ **Curling your lashes**

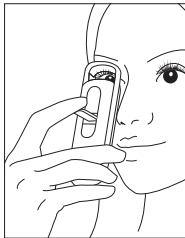

Divide eyelashes into three sections- root, middle and end. Curl them gradually toward the ends to set the shape.

*Do not push the lever too forcefully.

Pressing harder will not improve the curling effect.

*The way eyelashes curl varies from person to person.

If your lashes don't lift enough, try holding them in place for a little longer.

- ⑤ **Use mascara to enhance the effect if needed.**

- ⑥ **Always turn the unit off when not in use.**

Long press power button.

How to Keep / Storage Instructions

How to Keep

- Never wash the main unit or its accessories with water.
- The silicone pad cannot be replaced, so do not pull it out or tug on it.
- If the silicone pad becomes dirty, gently wipe it with a damp tissue or alcohol.
- It is recommended to clean the device after every use.
If mascara hardens and builds up, it will become difficult to clean.
- Do not use solvents such as alcohol, thinner, or benzine.
Doing so may cause malfunction, cracking of parts, or discoloration.
- To prevent deterioration or damage, avoid direct sunlight when storing or drying the device.
- Due to the nature of the materials, the body of the unit may discolor over time; however, this does not affect quality or performance.
(This is not covered under warranty.)

Storage Instructions

- When not in use, turn off the power and unplug the USB cable from the unit before storing.
- Do not leave the device near fire, under direct sunlight, in bathrooms, inside vehicles, or in other hot and humid places. Store it in a clean, well-ventilated, shaded area.
- Keep out of reach of children.
- If not using the device for a long period, clean it and fully charge it before storage. Also, operate the device and recharge it once every month. If it is left uncharged for a long time, it may no longer be able to recharge. Due to the characteristics of the battery, it will gradually discharge even when not in use, so the remaining charge will slowly decrease during storage.
